GlobalMindED

2021 GlobalMindED

The Future of Work is Diverse, Inclusive, Just and Equitable

GlobalMindED closes the equity gap by creating a capable, diverse talent pipeline through connections to role models, mentors, internships for low-income students, returning adults, First Gen to college and inclusive leaders who teach them, work with them and hire them.

As we continue to celebrate Black History Month, meet Dr. Renee Horton, a girl who dreamed of being an astronaut and became a NASA STEM star, author, and Louisianian of the year! Read her incredible story below.

Join us for these Black History Month Equity Topics. Details and sign up below:

- **2/22 Health:** Mobilizing Successful, Timely Vaccines in Communities of Color
- **2/23 STEM:** Breaking Black Barriers in STEM: Creating a Capable Diverse Talent Pipeline
- **2/24 Foundations/Funders:** Building Communities of Inclusive Strength - ROI for Investment, Equity and Outcomes
- **2/25 Tech:** Black Education Leaders Normalize BIPOCs in Tech - Creating a Diverse Talent Pipeline

The GlobalMindED [YouTube channel](#) has over 90 DEI webinars primarily led by leaders of color with panelists from a variety of backgrounds. Share with your colleagues in your company, your university or learning institution and your children, friends and family.

Recent Equity events:

- **K-12:** [Black Women First: Powerful Innovators Changing the World](#)
- **Higher Education:** [Fighting to Correct the Narrative - Black History is more than Enslavement](#)
