2. Please note the strengths of the course.

ResponseID	Response
1	the professor , pp presentations and feedback
2	really enjoyed format of the course (online, open note, etc.). I was able to learn at my own pace and know exactly what was expected and tested.
3	Very well organized class, explanation of what was expected was clear
4	variety of resources to learn the information
6	Professor Beck organized all of the course material with structure and ease at mind. The course expectancies and assignments were easy to follow and helped to promote the best learning atmosphere, especially in the remote setting. The course was one of the best I have taken and I feel I was greatly successful in learning the material in this class, this semester.
7	Professor Beck was very organized and timely. Prompt response to emails.
8	the layout of the systems was helpful and the project seemed to relate well to the material
9	Very well organized.
10	The syllabus had everything that was expected and left no room for questioning what needed to be done.
11	I thought that the strength of this course was the zoom meetings and ATI activities. I also felt that having open book exams was helpful in verifying that I was learning the proper information from the other assignments in the course. It was very organized which was much appreciated.
12	The course gave me the ability to learn about various drug classes and was sectioned/categorized in ways where it was easier to understand and learn
13	Organized and detailed.
14	The weekly assignment sheets were helpful and laid out in a manner that advanced my learning. The course project was a good learning experience. Professor Beck was available to this student and answered emails in a timely manner
15	Excellent organization and concise expectations
16	Well organized
17	Everything was posted on time and everything was clear on what was expected of us.
18	The strengths of this course were the discussion boards. They were very helpful in my learning for those specific medications and the ones we learned more about in our reply posts.

# 3. Please note the weeknesses of the course.

ResponseID	Response
1	Nothing
2	Templates were a bit overwhelming, but i understand their importance.
3	some of the last subjects should be separated by more weeks as those systems are difficult to learn(week 4 and 5)
4	lecture reviews were being read from the PowerPoint. less interaction with the professor
6	There are no weaknesses to note. As stated above, Professor Beck is extremely organized, always followed up to emails or questions asked within the "class cafe", and honestly provided enough information that there were not really any questions to be asked.
7	None
9	Not enough weeks
10	None. I enjoyed doing this course online.
11	I cannot think of any weaknesses.
12	Being online, I know we can't help it but I prefer in class. Otherwise there is no weakness in regards to the course
13	Online was not helpful for me. 6 week course was not helpful for me.
14	I don't enjoy online classes but this worked for me this summer due to personal reasons
15	Course load was too heavy to be a 6 week course, 12 weeks would have allowed better retention and less pain from excessive amounts of hand written notes.
16	none, in my opinion
17	It was hard to take a 25 question exam in 45 minutes, especially for people who are not good test takers
18	The weakness was that his course was nearly all open book. It was not a challenge for me to learn what I was reading about. However, the medication templates and discussion board posts increased my knowledge for the tests.

4. Please offer any suggestions you may have for improving the course.

ResponseID	Response
4	n/a
6	I have no suggestions, as I feel this class was organized and structured to the best capability. I truly enjoyed taking this course and would highly recommend it to anyone in the future!
7	None
9	1. Have the course offered in 8 weeks instead of 6 weeks. 2. Monitor discussion board posts for copying.
10	I think the structure and outline was great I don't think anything needed to be improved.
11	None that I can think of. Professor Beck did a great job!
12	I genuinely feel that the class went very smoothly especially for being online and I think there would not be much if anything to improve on
13	A longer course, with in person teaching.
16	less discussion board work
17	Maybe giving a little bit more time for the exams
18	No suggestions

5. What has been the most effective in helping you learn?

ResponseID	Response
1	Powerpoints, discussion boards and ATI
2	organization of course and canvas, consistency in assignments and grading. Very helpful discussion boards. clear expectations and rubrics.
3	Templates, kept notes organized
4	ati templates, and power point
5	The medication templates
6	I have really enjoyed the discussion boards that we have participated in throughout the course and the PowerPoint lectures presented by Professor Beck were extremely helpful in further learning the material and developing a deeper understanding.
7	Weekly exams
9	Having the course be open book helped as I learn as I look up and find answers.
10	The powerpoints and using the ATI modules
11	writing out the medication templates by hand and going through the ATI modules.
12	ATI has been very useful in enhancing my learning for the pharmacology course
13	Having an organized course.
14	The Pharmacology book was a great resource. Professor Beck's lecture material was well organized, and advanced my education.
15	The hand writen med cards and ati modules were helpful learning tools. I wouldnt recommend this class to be a 6 week again, as the condensed work load was excessive and elicited extra stress and pain as a result of this. Aside from that I enjoyed this class and look forward to continuing to solidify my medication knowledge.
16	Readings
17	The medication cards
18	The medication templates
