Collision Task List Instructions

- 1. At the top of 1st Tab fill in student names The names will populate throught the entire sheet & workbook.
- 2. For each question enter **P** for pass or **F** for fail-not case sensitive.
- 3. If an **F** is entered the cell will change color- **F** this will help you track students.
- 4. At the bottom of each section will be the number of tasked performed correctly and the %. This is automatically calculated.
- 5. At the bottom of each worksheet is a tabulation of all taskes and whether the crieteria was met. If the criteria was met the box will be green 95% If not met the box will be red 75%

STRUCTURAL ANALYSIS AND DAMAGE REPAIR

For every task in Structural Analysis and Damage Repair, the following safety requirement must be strictly enforced:

Comply with personal and environmental safety practices associated with clothing and the use of gloves; respiratory protection; eye protection; hand tools; power equipment; proper ventilation; and the handling, storage, and disposal of chemicals/materials in accordance with local, state, and federal safety and environmental regulations. Identify vehicle system hazard types (Supplemental Restraint System (SRS), hybrid/electric/alternative fuel vehicles), locations and recommended procedures before inspecting or replacing components.

CRTN140	4. Store, handle, and install high-pressure gas cylinders; test for leaks.	HP-I	р	р	р	р	р	р	р	р
CRTN140	5. Determine the proper angle of the gun to the joint and direction of gun travel for the type of weld being	HP-G	р	р	р	р	р	р	р	р
CRTN140,201,210	6. Protect adjacent panels, glass, vehicle interior, etc. from welding and cutting operations.	HP-I	р	р	р	р	р	р	р	р
CRTN140,201,210	7. Indentify hazards; foam coatings and flammable materials prior to welding/cutting procedures.	HP-G	р	р	р	р	р	р	р	р
CRTN140,201,210	8. Protect computers and other electronics/wires during welding procedures.	HP-I	р	р	р	р	р	р	р	р
CRTN140,201,210	9. Clean and prepare the metal to be welded, assure good metal fit-up, apply weld-through primer if	HP-I	р	р	р	р	р	р	р	р
CRTN140,201,210	10. Determine the joint type (butt weld with backing, lap, etc.) for weld being made.	HP-I	р	р	р	р	р	р	р	р
CRTN140,201,210	11. Determine the type of weld (continuous, stitch weld, plug, etc.) for each specific welding operation.	HP-I	р	р	р	р	р	р	р	р
CRTN140	12. Perform the following welds: plug, butt weld with and without backing, and fillet etc., in the flat,	HP-I	р	р	р	р	р	р	р	р
CRTN140	13. Perform visual evaluation and destructive test on each weld type.	HP-I	р	р	р	р	р	р	р	р
CRTN140	14. Identify the causes of various welding defects; make necessary adjustments.	HP-I	р	р	р	р	р	р	р	р
CRTN140	15. Identify cause of contact tip burn-back and failure of wire to feed; make necessary adjustments.	HP-I	р	р	р	р	р	р	р	р
CRTN140	16. Identify cutting process for different substrates and locations; perform cutting operation.	HP-I	р	р	р	р	р	р	р	р
CRTN140,210	17. Identify different methods of attaching structural components (squeeze type resistance spot welding	HP- <mark>G</mark>	р	р	р	р	р	р	р	р
