

Standard 1. Employment Potential

Students are assisted in placement in a few different ways.

Facebook

NCC Automotive Facebook Group has continued to be successful. This Group grown from 160 members in 2017 to over 200. Freshman that have not yet taken an Automotive Course to graduates from as far back as 2000. These graduates are now lead service write and shop foreman and business owners. We take great pride in the fact that they are now looking back to us to find their employees.

Advisory Board

Our advisory board has the most contact with our program and is able to hire students and provide us with direct feedback on their skill areas. I look to the board to place our students first. Whenever I have a student looking for employment, I look to the board first.

NHADA

NHADA says there are over 400 job opening in the state. With students that travel, it is difficult to have direct contact with the shops in their home area. NHADA has assisted in the placement of students for us and is eager help us to place more.

Graduate Survey

One of the question is the graduate survey is if the graduate would like assistance in job placement. Depending on what the student is looking for we can us any one of the above method to place that graduate.
