

Multiple HAND + Shop Tools			
			ELECTRICAL
SHEET METAL CONSTRUCTION AND REPAIR		Painting and Finishing	Wire and Cable various sizes
Dollies and stakes		Primers	Wire groups and bundles
V-blocks		Identification of Paints	Single-cord lacing
Hardwood form blocks		Finishing Equipment	Tie-wraps various sizes
Shrinking blocks		Paint & Finishing Guns	Wire and cable Side Cutters
Sandbags		Protective Equipment for Personnel	Wire and cable Strippers
Layout tools			
Scales		Welding	Copper wire terminals
Combination square		Gas Welding and Cutting Equipment	Crimping tools
Dividers		Oxy-acetylene Cutting Torch	Aluminum wire terminals
Marking tools		Brazing and Soldering Tools	Splicing solder and potting compound
Scribers		Gas Metal Arc Welding (TIG Welding) Units	Shrinkwrap
Lead pencil		Oxy-Acetylene Torch	
Punches			Bonding and grounding Terminals
Prick punch			Bonding Strips and Wire
Center punch		Composites	Various connectors
Transfer punch		Composite Structures	Class A,B,C,D,K
Pin punch		Sandwich Structures	
Cutting tools		Manufacturing and In-Service Damage	Various Volt/Ohm Meters Fluke
Hand cutting tools		Nondestructive Inspection (NDI) of Composites	
Sheet metal shears		Composite Repair Materials	Circuit protection devices
Aviation snips		Composite Honeycomb Sandwich Repair Materials	Fuses
Files		Transparent Plastics	Circuit protection devices
Burring tools			Switches
Drills			
Drill motors			BATTERIES
Electric			Various Aircraft and Support Batteries
Pneumatic			Characteristics of various types
Right-angle attachment			Battery Charger
Snake attachment			DC motors - Armatures
Multiple HAND + Shop Tools		AVIONICS	
Extension drills		I have no idea of where to begin on Avionic training materials, or support equipment. Exception <u>5 analog training boxes</u> and cables	
Twist drills			
Shrinker		Multiple radios, antennas, vor, dme, cockpit instruments etc.	
Stretcher			
Riveting tools pneumatic			
Special assembly tools			
Clamps and sheet fasteners sets and boxes			
Cleco fasteners boxes multiple sizes			
Wing nut fasteners each		Shop Floor Equipment	
C-clamps		Squaring shear - 4'	
Hole finders		90 degree Shear	
Chip chasers		Throatless shear	

		Metal Brakes 2' + 4' + 18" total for 3 brakes		
		Sheet Metal Roller		
		Grinder 6" + stand		
Engines & Turbines		Rotary press Hole Punch + stand		
		Band saw Vertical + Horizontal		
Lycoming & Continental Engines 4 & 6 Cylinders		Disc sander + Stand		
Propellers Hartzell on Stands 5ea.		Drill press		
Radial Engine & Prop		Press brake		
Fuel Pump Trainer		Cornice brake		
Air Research Turbine Test Stand		Bar folding machine		
Alternator Test Stand		Box or finger brake		
Aircraft Ignition Cable Test Stand		Slip roll former		
Spark Plug Cleaner		Hydropress		
Valve Grinder				
Parts Washer				
Cabinets & Lab Equipment				
Instruments & Radios		Training Aircraft Complete		
Ignition and Starters		Cessna 152 Aircraft		
Magnetos		Cherokee Aircraft		
Carburators		Active Aircraft at Boir Field (Bob D's twin, others)		
Oxygen Systems				
Alternators & generators				
Hydraulic Equipment				
Misc. Engine Specilaity Tools, (building engines)
